

# GENERAL CAPITAL GROUP

## GCG – German partner exclusively for Russia

- **GCG, headquartered in Munich (Germany), has already successfully invested € 4.5bn as active main shareholder (single largest shareholder) in German global corporations** (e.g. Volkswagen or Siemens), exclusively for investors advised by GCG, focusing on: *“Investing in global German blue chip companies with market and technology leadership, at an attractive purchase price, with potential to exert active influence in order to increase the company’s value and realize strategic synergies with GCG’s investors.”* GCG maintains a close, high-quality network or grown relationships, respectively, to essential executive and supervisory board members as well as to *politics and union personalities* in Germany.
- **GCG system of influence – alignment of interests**

- **Optimal preparation for value creation, high dividend yield, synergies, technology transfer and direct investments in Russia:** GCG is well connected to companies in German key industries and can actively create synergies in relevant industries (e.g. transportation, energy, telecommunications) for its investors. As single largest shareholder, GCG can exert significant influence on the globally active target companies and push the implementation of the investor’s strategic interest, synergies, direct investments as well as joint ventures between GCG target companies and Russian corporations.
- **Target corporations:**
